

ORANGE

Eco-Friendly Cream for Anilox Cleaning

Maximize your anilox roll performance with ReNew™ Orange eco-friendly cream for anilox cleaning. Clean anilox rolls are essential to deliver precise, consistent and predictable volumes of ink or coating. ReNew Orange is compatible with all types of inks and coatings and is ideal for quick, on-press cleaning to restore cell volume between deep cleanings. Make ReNew Orange part of your anilox cleaning program and be confident in your print quality.

- > Quick on-press anilox cleaning
- > Compatible with all types of inks and coatings
- > Near neutral pH of 7 (+/-1)
- > Non-toxic, Low VOCs, Biodegradable
- > Water soluble, Non-flammable
- > Pleasant citrus fragrance

"ReNew Orange has been an excellent addition to our plant's printing process. We have found it to be a safe, effective product that is perfect for quick, in-press cleanings between our scheduled preventative maintenance cleanings."
